

BioSpace Names Civica a Best Place to Work

LEHI, Utah, Nov. 4, 2025 – BioSpace, a leading life sciences digital hub, has named Civica a [2026 Best Place to Work](#). BioSpace recognizes Civica as a highly sought-after employer in the life sciences community.

Civica's President and CEO, Ned McCoy, conveyed the team's honor for the acknowledgement.

"This recognition is meaningful. It reflects our team's hard work and resilience," said McCoy. "Together we continue to grow our impact – providing nearly 250 million units of quality generic medicines, enough to help treat over 90 million patients so far."

Civica emphasizes predictable drug supply and sustainable pricing. It also invests in quality manufacturing, including a preference for U.S. sourcing, as well as strategic contracts that bring stability to the market. Civica's new manufacturing facility, currently in the start-up phase, will add more domestic capacity and much-needed redundancy to the marketplace.

"Behind every reliable and affordable dose of medicine is the outstanding team that demonstrates care for one another and for the patients we ultimately serve," said McCoy. "Congratulations to the entire Civica team for this well-earned recognition."

About Civica

Founded in 2018 by innovative healthcare leaders nationwide, Civica is a pharmaceutical nonprofit dedicated to ensuring the accessibility, affordability and quality of essential generic injectables and biosimilar insulins. With 60 members, including leading health systems, hospitals, and philanthropic organizations, Civica supplies more than 70 essential medicines to over 1,400 hospitals, supporting care for over 90 million patients. By committing to long-term contracts and targeting six months of safety stock, we help stabilize the market and reduce the impact of shortages. Learn more at www.Civicarx.org.

About BioSpace

BioSpace is the digital hub for life science news and jobs. It provides essential insights, opportunities and tools to connect innovative organizations and talented professionals who advance health and quality of life across the globe. Learn more at www.biospace.com.
